Dr. Bernard Davis  
Department of Bacteriology  
Harvard Medical School  
25 Shattuck Street  
Boston, Mass.

Dear Bernie:

This is a notification of our itinerary which we will adhere to unless you hear to the contrary from us. We will arrive at Boston on United flight 726 at 9:42 P.M. Wednesday night November 12th. However I expect my brother Seymour to pick us up and arrange for us to stay the night in Providence and deliver us to your laboratory around noon on Thursday. We expect to stay over Thursday night and to leave Boston Friday evening at 6:45 P.M. en route to Syracuse via flight American Airlines 549. I hoped we might visit around your department on Thursday and spend Friday at MIT and perhaps in Cambridge and also at Brandels although this will have to be settled on the spot.

Looking forward to seeing you.

As ever,
